A study in green.

This cozy heritage space is enlivened with a warm sage wall (forster sage TH-200), tan ceiling and trim (yorkville TH-140). The original fireplace surround, in a green slate coloured tile, provides a fitting accent to complement the monochromatic scheme. The marriage of new and old appears effortless in this den, which features contemporary club chairs, antique and reproduction accessories and authentic styling.

Pretty in pink.

The interior architecture of this space exudes immediate interest and a warm, cozy welcome. Converted to a beautifully nostalgic bedroom, the warm heritage rose (emily's room TH-290) envelopes the room and provides a fitting background to the Victorian furnishings and accessories.
