classic

Look sharp. The thrill of fall is in a dramatic sweep of camel, the impeccably crisp, tailored trim of white layered under soft butter suede... in sensuous menswear fabrics combined with burnished metals and mahogany. Rich, graceful and self-assured, these are colours drawn from nature at her most earthy and elegant.

charming

Add sugar and spice... and lots of friends. These are the colours of long, golden afternoons at the cottage, relaxing in chinos and rumpled flannel shirts. It's carrot soup, pumpkin pie with cream, the smell of fresh hay and drifts of wildflowers. Design your own B & B... the perfect nest, chock full of everything nice.

COZY

Snuggle up. Peruse this palette... you'll smell woodsmoke and hear chickadees in the silver birch. Like English checks and the tweedy flecks in a nubby blanket, these colours work together like a tightly knit clan. Layer them in fabrics, on feature walls and accessories. Add another log, and turn off the phone.

carefree

Get cabin fever. Loll like a chocolate lab on a sun-baked, plaid blanket. Daydream of hot, toffee leather, the buzz of cicadas, the leaves' first flush of red... your faded jeans, faithful as a best friend... a sliver of pale pink on the dark horizon across the lake. These hazy, lazy, late-summer colours will capture your heart.
